# The Future of Care is Clear

## OneLight<sup>™</sup>

BY BIONIX

### Illumination Platform

Unites every Bionix<sup>®</sup> lighted tool under one Rechargeable Light Source. Empowering clinicians to do more, faster with confidence while reducing long-term costs and minimizing waste.

**Proven Leadership.  
Purposeful Innovation.  
Powered by Bionix.**

## Enabling Better Care

**See clearly. Work confidently.**

Born from the belief that smarter tools lead to better care, the OneLight<sup>™</sup> Illumination Platform delivers ultra-white light that supports clear visualization during ear, nose and throat procedures.

- Clearer visualization of anatomy
- Confident care delivered right in your exam room
- Smoother, calmer visits for clinicians and patients

Designed to help clinicians work efficiently, confidently and keeping appointments on track.\*

\*Based on Bionix Technical Report QCR-00113

## Optimizing Workflow

**One light source. Every tool.**

A single Rechargeable Light Source powers all Bionix illuminated tools – simplifying training, reducing inventory and allowing teams to stay focused on patient care.

- Seamless transitions between exams and procedures
- Fewer steps, less tool switching
- More than 22% efficiency gains demonstrated in testing\*

Built for the reality of today's practices: limited staff, growing demand and fewer visits to resolve more care.

## Driving Economic Value

**One platform. Lasting savings.**

Curated combination packs, affordable refill packs and multi-tool compatibility make it easy to expand care without adding complexity.

- Replaces multiple disposable light sources
- Lowers total cost of ownership
- Maximizes value in both routine exams and advanced procedures.

By enabling procedures like curettage and foreign body removal in-office, OneLight helps retain care within your practice and avoid unnecessary referrals.
