

Product Solutions for Acute Care Facilities

One Facility: Many Areas, Many Surfaces, Many Infection Control Risks

Hospital patients are at high risk for developing healthcare-associated infections (HAIs). Infection prevention and control programs can help prevent the spread of infection to vulnerable patients. Proper cleaning and disinfecting programs depend on identifying the challenges and risks within a facility and responding with the most appropriate products.

C. difficile and Emerging Pathogen Risk Areas

Isolation Rooms, ICU, Endoscopy,
Emergency Department

The risk of contracting *C. diff* goes up 2.5x for patients assigned to rooms previously occupied by a *C. diff* patient.¹

Challenges:

- ▶ Frequent *C. difficile* and gastrointestinal pathogen exposure
- ▶ High traffic from patients, staff and visitors
- ▶ Patients with weakened immune systems or previous infection with *C. diff*

Common and Staff Areas

Lobbies & Reception Areas, Public Restrooms, Lounges,
Breakrooms & Cafeterias, Offices & Conference Rooms

Soft, porous surfaces aid in the spread of microbes, like MRSA, in the healthcare environment. Routine sanitization of soft surfaces can reduce bacterial contamination.³

Challenges:

- ▶ Many pathogens retain infectivity on surfaces for days, weeks or even months
- ▶ Large spaces are often overlooked or deprioritized
- ▶ High traffic from patients, staff and visitors with relaxed infection control practices

Patient Care Areas

Non-isolation patient care areas, including Patient Rooms, Procedural Areas, Labor & Delivery, NICU, Dialysis, Radiology & Rehab

Studies show that structured, daily cleaning and disinfecting of shared equipment can reduce healthcare-associated infections by 35%.²

Challenges:

- ▶ Risk of pathogen transmission, including *C. auris*, Norovirus, and MDROs
- ▶ Fast-paced environments
- ▶ High touch surfaces and shared medical equipment
- ▶ Multiple staff members with cleaning responsibilities
- ▶ Procedural and perioperative areas prone to soiled/stained surfaces
- ▶ Immunocompromised patients with increased susceptibility to infection

	Products	? Why	⌚ When	📍 Where	📅 How Often
C. difficile and Emerging Pathogen Risk Areas	Clorox Healthcare Bleach Germicidal Wipes EPA Reg. No. 67619-12 35309 6.75" x 9", 6/70 ct. 30577 6"x5", 6/150 ct. 30358 12"x12", 2/110 ct. bucket 30359 12"x12", 2/110 ct. refill 	Kills 67 organisms including <i>C. difficile</i> spores, <i>C. auris</i> , MRSA and VRE in 3 minutes*	During the day, as needed; at the end of the day	High risk-spaces, isolation rooms, bathrooms, high-touch surfaces	During outbreaks or when conducting turnover clean
	Clorox Healthcare Bleach Germicidal Cleaners EPA Reg. No. 56392-7 68970 Spray, 6/32 fl. oz. 68832 Pull-Top bottle, 9/32 fl. oz. 68978 Refill, 4/128 fl. oz. 	Kills 58 microorganisms including <i>C. difficile</i> spores, <i>C. auris</i> , MRSA, and VRE in 3 minutes*			
	Clorox Healthcare Fuzion Cleaner Disinfectant EPA Reg. No. 67619-30 31478 Spray, 9/32 fl. oz. 	Kill 66 pathogens including <i>C. difficile</i> in 90 seconds or less with this powerful, next-generation bleach*			
	Clorox Healthcare HyperOxi Disinfecting Wipes EPA Reg. No. 6836-523-67619 73209 Wipes, 5" x 6", 6/270 ct. 73210 Wipes, 7" x 9", 6/150 ct. 	Kills <i>C. diff</i> in 4 minutes with non-bleach formula			
Patient Care Areas	Clorox Healthcare Quat Alcohol Disinfecting Wipes EPA Reg. No. 67619-49 60958 5" x 7", 6/275 ct. 60959 7" x 10", 6/135 ct. 	Kills <i>C. auris</i> , Norovirus, and 26 other pathogens in 1 minute*	Daily cleaning and disinfection	Frequently touched hard surfaces and shared mobile equipment	Daily, in between uses or after high-use periods
	Clorox Healthcare Hydrogen Peroxide Cleaner Disinfectant Wipes EPA Reg. No. 67619-25 30824 6.75" x 9", 6/95 ct. 30825 6.75" x 5.75", 6/155 ct. 30826 12"x11", 2/185 ct. bucket 30827 12"x11", 2/185 ct. refill 	Clean and disinfect healthcare surfaces in 2 minutes or less*			
	Clorox Healthcare Hydrogen Peroxide Cleaner Disinfectant Liquids EPA Reg. No. 67619-24 30828 Spray, 9/32 fl. oz. 30829 Refill, 4/128 fl. oz. 	Clean and disinfect healthcare surfaces in 1 minute or less*			
	Clorox Healthcare VersaSure Cleaner Disinfectant Wipes EPA Reg. No. 67619-37 31757 6.75"x8", 6/85 ct. 31758 6.75"x5", 6/150 ct. 31759 12"x12", 2/110 ct. bucket 31761 12"x12", 2/110 ct. refill 	Disinfect in 2 minutes* with a low-odor, alcohol-free formula.			
Common and Staff Areas	CloroxPro Clorox Disinfecting Wipes EPA Reg. No. 67619-31 15949 7"x8", 6/75 ct. 31547 7"x7", 1/700 ct. bucket 31428 7"x7", 1/700 ct. refill 	Cleans and disinfects 99.9% of germs in one easy step*	Daily cleaning and disinfection, as needed, at the end of the day	once instance of "Shared surfaces in common spaces"	Daily, as necessary
	Clorox Healthcare Citrace Hospital Disinfectant & Sanitizer EPA Reg. No. 67619-29 49100 14 oz. can 	Kills 99.9% of bacteria on soft surfaces*			
	CloroxPro Clorox Disinfecting Bio Stain & Odor Remover EPA Reg. No. 67619-33 31903 Spray, 32 fl. oz. 31910 Refill, 128 fl. oz. 				

*When used as directed on hard, nonporous surfaces. Follow special instructions for cleaning prior to disinfection. Consult medical equipment care and cleaning guides prior to selecting and using any surface disinfectant
